Our solutions

We have developed 14 AI accelerators to enhance and expedite data utilisation in businesses, driving smarter decision-making processes.

 Forecasting	 AI for Tax	 Supply Chain & Fleet Optimisation	 AI for Industry	 Inventory Optimisation
 Recommendation (NBO)	 Churn	 Smart Clustering	 Absenteeism	 Fraud
 Pricing	 Production Optimisation	 Turnover	 Maintenance Predictive and preventive	

Advantages for Each Sector

Supply	Customer	Finance	HR	Industry
<ul style="list-style-type: none">• Reduces Stock Shortages;• Optimises Logistics Network;• Ends Overstocking;• Increases Demand Forecasting Precision;• Boosts Operational Efficiency;• Provides Enhanced Operational Control.	<ul style="list-style-type: none">• Boost Your Revenue;• Minimise Customer Churn and Enhance Your NPS;• Enhance Campaign and Action Outcomes with AI;• Strengthen Brand Recognition;• Increase Engagement Between Brand and Customer.	<ul style="list-style-type: none">• Reduces Fraud Incidences;• Optimises Operating Costs;• Increases Net Profit;• Identifies Gaps in Operations;• Forecasts Defaults and Enhances Recovery;• Strengthens Brand Identification.	<ul style="list-style-type: none">• Reduced Absenteeism and Turnover;• Improved Talent Retention Rates;• Increased Employee Company Alignment;• Identified Gaps in Mental Health Performance;• Enhanced Training Adherence.	<ul style="list-style-type: none">• Eliminated Reactive Maintenance;• Optimised Production Chain for Increased Output;• Optimised Stock Levels;• Improved Plant Management;• Reduced Maintenance Downtime;

How We Operate

We build pipelines to collect data from your databases or public database sources.

We're Environment-Agnostic

We process data and apply machine learning algorithms to gain insights that inform data-driven decision-making, guiding businesses towards a better understanding, description, and prediction of events.

We Present Data for Visualization on the Ideal Platform for Your Business

How do we deliver value?

Delivery

Our commitment is to deliver high-value projects, merging UX, technology, and business, with a constant aim to surpass our customers' expectations.

Reliability

Customer trust is a cornerstone of our work. Having completed multiple projects for over 95% of them, we are confident in the reliability and satisfaction of our performance.

Impressive Statistics

We have successfully delivered over 100 projects across various sectors, accumulating more than 500 thousand hours of expertise. These figures reflect our extensive experience and unwavering dedication to our work.

Commitment

We operate with a strong sense of urgency and take ownership to ensure project delivery and optimal outcomes for our clients. Our primary focus is on achieving results.
